

# A Touch of Glass

# Skyport Sunroofs presents a new outlook on life...

An exciting new concept in Luxury Sunroofs, offering the benefits of a soft top or conventional Sunroof without any of the problems.

## What Makes Skyport so Different?

Skyport is unique in so many ways. Like most brilliant designs the concept is quite simple. It is an EYE-CATCHING see-thru glass sunroof which can be easily tilted open or entirely removed, in a matter of seconds. Yet its sophisticated, tinted, solar reflective glass and immaculately finished one piece frame makes it one of the most desirable luxury car accessories in the world. The secure, tamper proof design discourages vandalism & theft. There is a choice of sizes, designs, finishes and accessories to suit your car and pocket.

## Light and Spacious Interior

Dull, cramped stuffy interiors take on a new dimension . . . a feeling of space and light . . . removing the claustrophobic effect you get in some cars. This pleasurable experience is achieved without extra wind noise, draughts or leaks and can be enjoyed EVERY DAY OF THE YEAR!

## Friendly, radiant glow

The space age silver mirror finish or bronze tinted (according to availability) safety glass fills the car with a cool mellow glow. And, to see that you and your passengers stay cool and comfortable even in the hottest sun, the special curved glass actually reflects away the sun's heat. This important luxury feature is achieved by space age technology — a micro coating of pure Titanium, vacuum deposited with laser-like precision.

## Exotic good looks — open or closed

An outstanding custom design, that fits flush, blending with the lines of your car, so well, that it looks like factory equipment. From a Ferrari, Rolls or Mercedes to the humblest Mini — the effect is quite stunning!

## Superbly built for long lasting enjoyment

Skyport's other nice features include: a sleek one piece aluminium frame, with smooth lustre or matt black finish and special quick release \* hinges of the finest quality. The solid dual-clamp lock catches, ensure utterly reliable, easy operation. Skyport's glass closes and cushions onto a continuous heavy duty, resilient, silicone rubber seal, for positive weathertight performance.

\* Patent applied for.

## Easy to use on the move

Unlike many conventional sunroofs or soft tops — Skyport can be opened or closed when on the move by the driver in complete safety. Sudden showers present no problems, the special design makes it possible to drive in the rain (when tilted open) without water entering the vehicle. For maximum enjoyment on sunny days, the tinted glass panel can be removed and stored in the boot or back seat area, transforming your saloon, coupe or hardtop, pickup or van into a convertible. To keep draughts and buffeting down to a minimum a specially designed Wind Deflector is available. (Optional Accessory.)

## Skyport features:

- \* Eye-Catching one piece polished aluminium frame with matt black or lustre finish.
- \* Advanced silver mirror finish or bronze tinted, Solar Reflective safety glass. (Reflects away the sun's heat).
- \* Can be opened or closed in safety with one hand, by the driver, on the move.
- \* Special quick release hinges enables the glass to be removed and stowed away in boot or back seat.
- \* Completely secure and tamper-proof design. Locks securely from the inside. Watertight design — you can even go through a car wash.
- \* Special low profile frame contours to the roof lines of your car.
- \* Creates no wind noise.
- \* Looks like a factory fitted option . . . not an afterthought.
- \* Sturdy one piece construction, actually strengthens vehicle roof.
- \* No headlining matching or drainage problems.
- \* Makes car interiors feel more spacious, light and airy.
- \* Skyport can be left in the tilted open position when driving in the rain without fear of water entering.
- \* Fitted in a day by specialist Skyport agents.
- \* Virtually no maintenance required.
- \* Requires no structural alterations (on the majority of vehicles).

*Skyport . . . probably the most beautifully made sunroof in the world.*

## Healthy all the year round benefits

Skyport can contribute greatly to the health, safety and well being of driver and passenger alike. The improved fresh air circulation helps extract smoke and fumes and combats fatigue, drowsiness and car sickness. Even in cold weather with the Skyport closed you'll enjoy the uniquely spacious Skyport freedom of driving under open skies.

Whichever of our 6 models you choose Skyport will open up an exhilarating new world of exotic motoring.

## Improve the value of your car

Invest in an original Skyport and make your car more desirable, luxurious and enjoyable to drive. Skyport is a quality accessory designed to last the lifetime of any car. A valuable asset too! Reap the Skyport benefits all year round and be handsomely rewarded when the time comes to sell.

# There's a Skyport to suit your car, taste and pocket.

## Choose from these 6 exciting models.

## Nationwide Installation Centres

Skyport Sunroofs can be fitted at any one of our nationwide special fitting centres.

Trained technicians will help you choose the proper model for your particular vehicle, advise about the optional accessories, relevant costs and arrange a mutually agreeable date for the work to be done. When buying a new car, the salesman can arrange for a Skyport to be fitted before you take delivery.

Don't accept an imitation — ask for an ORIGINAL SKYPORT by name.

## Same Day Service

We believe in service. Your local centre can fit the unit while you're at work and have your car ready the same day. In addition to the 1 year warranty, Skyport Sunroofs also maintain a full inventory of replacement parts.

## 12 Months Guarantee

Skyport Sunroofs are manufactured to the highest possible standards. Every care and precaution is taken to ensure each unit leaves the factory in perfect condition. Although it is unlikely that you will experience any problem with your Skyport, a 12 month unconditional written guarantee against faulty workmanship or materials is supplied.

\*\* Registered design patent applied for.

## SKYPORT ACCESSORIES

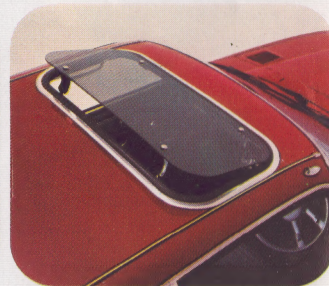

### Glass Storage Bag

To protect the glass panel when removed.

### Wind Deflector

Keeps draughts and buffeting down to a minimum when glass panels are completely removed.

Ask your installation centre about these Skyport accessories — they'll be happy to tell you more.
